ADVANCEMENT

is a thing we all strive for

The Cole Nursery Co. has always endeavored to keep up with the times and wherever possible to make changes "for the better." You will note that we have instituted this year an EACH RATE FOR YOUR ACCOMMODATION (where less than five plants of a variety are wanted.) Although the type of order that this refers to usually averages well, there are often a few items wanted in small quantities, and we wish to accommodate you.

Moreover there is a further ADVANTAGE FOR YOU in that we have been enabled to LOWER THE 10 RATE PRICE ON APPROXIMATELY 500 ITEMS. We fully believe that you deserve these lower prices where 5 to 25 plants are required. We are glad to do this and of course we guarantee the usual "COLE QUALITY."

Regarding Recent Introductions

It is a lamentable fact that hybridizers and introducers are usually over-zealous, and that a large percentage of the **New** things pushed on the market are really not worth-while introductions.

For this reason Cole has always been slow to list **New** things. We, however, watch and test these introductions and list them as soon as we are fully satisfied that they are noteworthy improvements.

So you may bank on it that you will be pleased and not disappointed in using any of the **New** items listed by Cole.

A few of those recently added to our list follow:

FRUITS

Apple Cortland, **Peach** Salberta, Ireys, Wilma (the last named was introduced by Cole and has quickly gained its place among the best sellers; **Grape** Caco, **Raspberry** Latham, Madison No. 1; **Asparagus** Washington, **Strawberry** Mastodon.

ORNAMENTAL TREES

Malus in variety (the beautiful Flowering Crabs); **Prunus** in variety (showy Flowering Cherries); **Salix** regale (Royal Willow).

Aronia atropurpurea, **Berberis** thunbergii atropurpurea, **Buddleia** farquhari, **Cornus** florida welchei, **Corylus** avellana aurea, **Cotoneaster** in variety, **Forsythia** intermedia spectabilis, **Philadelphus** virginal and rosace, **Viburnum** carlesii, pubescens.

VINES

Polygonum auberti. The grand new China Fleecevine that to us seems far superior in all respects to the Clematis paniculata.

ROSES

We add a number of thoroughly tested roses to our collection each year and at the same time eliminate a few of the least worth-while.

We endeavor to always have a very high class collection to meet all needs.

PEONIES AND PHLOX

Our collections are ranked among the best and are being constantly improved through our progressive plan of yearly setting aside a large amount of money for their improvement.

At your request we would be glad to mail you our beautiful 64 page Retail book. The new and scarce items as well as the old standards are fully described in this book which would be valuable to you for reference.
